

EAA Storage Reservoir A-1 Basis of Design Report

Appendices

January 2006

LIST OF SECTIONS AND APPENDICES

ES Executive Summary

No appendix for Executive Summary

Section 1 Introduction

No appendix for Section 1

Section 2 Existing Site Conditions

Appendix 2-1 Environmental Existing Conditions Technical Memorandum

Section 3 Design Requirements and Criteria

Appendix 3-1 Water Quality Model Selection Technical Memorandum
Appendix 3-2 Water Quality Model Technical Memorandum
Appendix 3-3 Water Quality Model Documentation Memorandum
Appendix 3-4 DMSTA2 Executable Case Files (Included on DVD of January 2006)

Section 4 Regulatory Considerations and Assurances

Appendix 4-1 Endangered, Threatened and Protected Species

Section 5 Hydrology

Appendix 5-1 Interim Summary Technical Memorandum
Appendix 5-2 Evaluation of PMP/PMF and DAMBRK Summary Technical Memorandum
Appendix 5-3 PMP/PMF Model Documentation Technical Memorandum
Appendix 5-4 HMR52 Users Manual
Appendix 5-5 HMR52 Input Files (Included on DVD of January 2006)
Appendix 5-6 HMR52 Output Files (Included on DVD of January 2006)
Appendix 5-7 EAA Reservoir A-1 Inflow Hydrographs (Included on DVD of January 2006)
Appendix 5-8 HEC-HMS Users Manual (Included on DVD of January 2006)
Appendix 5-9 HEC-HMS Model Input Description and Output Data (Included on DVD of January 2006)
Appendix 5-10 HEC-RAS Users Manual
Appendix 5-11 HEC-HMS Model Input Description and Output Data (Included on DVD of January 2006)
Appendix 5-12 HMR52, HEC-HMS, and HEC-RAS Model and Program Files (Included on DVD of January 2006)
Appendix 5-13 Model Selection and Design Conditions for Wave Run-Up Model
Appendix 5-14 Literature Review
Appendix 5-15 Wind and Rainfall Analysis
Appendix 5-16 Evaluation of Wave Run-Up and Internal Breakwaters
Appendix 5-17 Evaluation of Wave Run-Up Using Design Conditions from DCM-2
Appendix 5-18 Wave Run-up Model Documentation Memorandum
Appendix 5-19 ACES Technical Reference
Appendix 5-20 Wave Run-up Case Descriptions (Included on DVD of January 2006)

Appendix 5-21	Revised Wave Run-up Model Files (Included on DVD of January 2006))
Appendix 5-22	Wave Run-up Model Files (Included on DVD of January 2006))

Section 6 Water Storage and Reservoir Optimization

Appendix 6-1	Preliminary Data & Initial Hydraulic Model Summary Memorandum
Appendix 6-2	Hydraulic Model Summary Technical Memorandum
Appendix 6-3	Hydraulic Model Documentation Memorandum
Appendix 6-4	HEC-RAS Model Files (Included on DVD of January 2006)
Appendix 6-5	Pumping and Discharge Facilities Technical Memorandum
Appendix 6-6	Revised Water Balance Technical Memorandum
Appendix 6-7	Water Balance Model Alternative Evaluation
Appendix 6-8	Water Balance Model Documentation Memorandum
Appendix 6-9	Water Balance Model Inputs and Outputs
Appendix 6-10	Water Balance Model Data Assessment
Appendix 6-11	Cost Information for Modifications to Existing Pump Stations

Section 7 Subsurface Considerations for Construction

No appendix for Section 7

Section 8 Embankment/Dam Design

Appendix 8-1	Embankment Technical Memorandum
Appendix 8-2	Earthfill Dam Stability Analyses
Appendix 8-3	Stability Analyses - RCC Section - USACE
Appendix 8-4	RCC Stability Analysis Embankment Alternative No. 5
Appendix 8-5	Embankment Technical Memorandum II
Appendix 8-6	Seepage Control Technical Memorandum
Appendix 8-7	SEEPW Results
Appendix 8-8	Seepage Control Technical Memorandum II
Appendix 8-9	Test Cell Program – Technical Memorandum 1
Appendix 8-10	Reservoir Seepage Analysis Technical Memorandum
Appendix 8-11	Reservoir Configuration Technical Memorandum
Appendix 8-12	Reservoir Configuration Technical Memorandum II
Appendix 8-15	USACE Engineering Manuals (Included on DVD of January 2006)
Appendix 8-16	Logs of Geotechnical Borings Completed for Design of the Test Cells (Included on DVD of January 2006)
Appendix 8-17	Logs of Geotechnical Borings Completed During Construction (Included on DVD of January 2006)
Appendix 8-18	Daily Construction Reports (Included on DVD of January 2006)
Appendix 8-19	Daily Construction Equipment Logs (Included on DVD of January 2006)
Appendix 8-20	Typical Open Standpipe Piezometer Installations (Included on DVD of January 2006)
Appendix 8-21	Test Cell Embankment and Stockpile Construction QC Testing Data (Included on DVD of January 2006)
Appendix 8-22	Test Cell Pumping and Level Data (Included on DVD of January 2006)
Appendix 8-23	Representative Project Photographs (Included on DVD of January 2006)
Appendix 8-24	Test Cell Figures

Section 9 Reservoir Seepage

- Appendix 9-1 Initial Seepage Model Results Memorandum
- Appendix 9-2 Groundwater Model Memorandum
- Appendix 9-3 Sensitivity Analysis for Reservoir A-1 MODFLOW Model
- Appendix 9-4 Total Seepage from Reservoir and Seepage Collected by Seepage Canal
- Appendix 9-5 Groundwater Model Documentation Memorandum
- Appendix 9-6 GMS Groundwater Models and a Word Document Explaining the Use of Each Model

Section 10 Canals

- Appendix 10-1 Canal Alternatives Technical Memorandum

Section 11 Structural Design Criteria

No appendix for Section 11

Section 12 Site Civil Design

No appendix for Section 12

Section 13 Mechanical Design

- Appendix 13-1 Gate Evaluation Technical Memorandum
- Appendix 13-2 Pump Evaluation Technical Memorandum
- Appendix 13-3 Design Refinements Technical Memorandum
- Appendix 13-4 Northeast Pump Station Mechanical Evaluation Supporting Documents

Section 14 Electrical Design

No appendix for Section 14

Section 15 Instrumentation and Controls

No appendix for Section 15

Section 16 Architectural

No appendix for Section 16

Section 17 HVAC, Plumbing, and Fire Suppression

No appendix for Section 17

Section 18 Access and Security

No appendix for Section 18

Section 19 Public Involvement and Other Considerations

- Appendix 19-1 Secondary Benefits/Additional Features Technical Memorandum

Section 20 Draft Operating Plan

No appendix for Section 20

Section 21 Cost Optimization

No appendix for Section 21

Section 22 Construction Coordination

No appendix for Section 22

Section 23 Opinion of Probable Cost

No appendix for Section 23

Section 24 Emergency Action Plan

No appendix for Section 24
